# FLOAT LEVEL SWITCH

---

## GENERAL OVERVIEW:

When needed, encapsulate one or more magnetic switch points in non-magnetic metal or plastic. The magnetic switch that opens and closes to operate and regulate the liquid level is drawn to a hollow float ball by a permanent magnet. Without injecting any liquid, the condition is N.O. and N.C. The float switch is used often in the level control and alarm of machinery, electrics, chemicals, home appliances, etc. because it is inexpensive, dependable, flexible to install, and available in a variety of materials.

## PRODUCT APPLICATIONS:

Widely used in household appliance, anti-theft system of windows and doors, running machine, bicycle and car counters as well as the car door induction system, coffee machine, humidifier, computer, scanner etc.

## RANGE OF PRODUCTS

---

**FACTORY SALE 304 SS FLOAT  
LEVEL SWITCH SENSOR**

**Product Name:** Float Switch Sensor

**Material:** Stainless Steel 304/316

**Rod Length:** 220MM

**Cable Length:** as per your requirements

**Terminal / Connector:** As per your requirements.

**Function:** Float level switches are widely used in electronic, electrical, chemical, water treatment, drainage and other industry of level control and alarm.

**OEM:** Accepted

**Package:** Standard Export Package

**MULTI-POINTS STAINLESS STEEL  
FLOAT LEVEL SWITCH SENSOR**

**Product Name:** Float Switch Sensor

**Material:** Stainless Steel 304/316

**Rod Length:** 220MM

**Cable Length:** as per your requirements

**Terminal / Connector:** As per your requirements.

**Function:** Float level switches are widely used in electronic, electrical, chemical, water treatment, drainage and other industry of level control and alarm.

**OEM:** Accepted

**Package:** Standard Export Package
